Product name:	Product code:
Radiator and Thermostat Test Bench	CMI-NP-1039

Description

A test bench for checking radiator flow, thermostat opening temperature and pressure cap function, used to train automobile technicians in cooling system diagnosis.

Technical specification

Control	Thermostat
Adapters	Thermostat holder set
Experiments	Opening temperature, leak test
Power supply	230 V AC, 50 Hz

A heated water bath and gauges allow measurement of thermostat opening and pressure tests of the cap and radiator.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India

- Heated water tank with thermometer
- Thermostat opening test
- Pressure cap tester
- Radiator pressure test
- Digital temperature display
- Safety shut off

Technical Specifications

Heater	2 kW immersion
Temperature range	ambient to 110 deg C
Pressure test	0 to 2 bar
Tank	Stainless steel, 10 litre
Display	Digital thermometer
