NAUGRA®

Product name:	**Product code:**
Soldering and Desoldering Training Station	CMI-NP-1089

Description

A soldering training station with temperature controlled iron, desoldering pump and practice boards for learning through hole and SMD soldering.

Technical specification

Practice boards	PCB set
Solder	60/40, 0.8 mm
Experiments	Joint quality, rework
Power supply	230 V AC, 50 Hz

Students practise good solder joints, desoldering and rework on practice boards with an inspection loupe.

Features

- Temperature controlled iron
- Desoldering pump
- Fume extractor
- Practice boards
- Magnifier
- Tip cleaner
