Product name:	Product code:
Automatic Assembly Line Training Station	CMI-NP-1120

Description

Station with conveyor, pneumatic pusher and sensors that moves workpieces through feeding, inspection and assembly steps for learning PLC based automatic production control. Key highlights include conveyor with feeding and pusher and inductive and optical sensors.

Technical specification

PLC	24 I/O
Air supply	6 bar
Cylinders	4 nos
Dimensions	1200 x 600 x 700 mm

Standard Accessories

- Programming cable
- Manual

Station with conveyor, pneumatic pusher and sensors that moves workpieces through feeding, inspection and assembly steps for learning PLC based automatic production control. Key highlights include conveyor with feeding and pusher and inductive and optical sensors.

Features

- Conveyor with feeding and pusher
- Inductive and optical sensors
- PLC programmable sequence
- Pneumatic actuators
- Modular aluminium profile frame

Technical Specifications

Supply	230 V AC, 50 Hz, single phase
Conveyor	1000 mm belt, 24 V DC
Sensors	Inductive, capacitive, optical
