Product name:
Automobile AC Electrical Control and Fault Simulation Training Panel

Product code:
CMI-NP-1245

Description

Panel with blower, relays, pressure switches and thermostat wiring where faults can be inserted to teach car AC electrical diagnosis. Key highlights include blower, relay and pressure switch circuits and thermostat and clutch control.

Technical specification

Faults	8
Test points	4 mm
Panel	800 x 600 mm

Standard Accessories

- Test leads
- Manual

Panel with blower, relays, pressure switches and thermostat wiring where faults can be inserted to teach car AC electrical diagnosis. Key highlights include blower, relay and pressure switch circuits and thermostat and clutch control.

Features

NAUGRA®

- Blower, relay and pressure switch circuits
- Thermostat and clutch control
- Eight insertable faults
- Test points
- Wiring diagram overlay

Technical Specifications

Supply	12 V DC, 20 A
Relays	5 nos
Pressure switches	Dual
Thermostat	Adjustable
