Product name:	Product code:
Analog Electronics Op Amp and Transistor Training System	CMI-NP-1289

Description

Trainer with op-amp, transistor and diode circuits on a breadboard with dual power supply and function generator for analog circuit experiments. Key highlights include op-amp and transistor experiments and dual power supply.

Technical specification

Components	Resistor, capacitor kit
Panel	400 x 300 mm

Standard Accessories

- Component kit
- Patch cords

Trainer with op-amp, transistor and diode circuits on a breadboard with dual power supply and function generator for analog circuit experiments. Key highlights include op-amp and transistor experiments and dual power supply.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India

- Op-amp and transistor experiments
- Dual power supply
- Function generator
- Breadboard area
- Test points

Technical Specifications

Supply	230 V AC, 50 Hz, single phase
Power	+/-15 V, 5 V
Function generator	1 Hz to 100 kHz
Breadboard	2000 tie points
Meters	Digital V
