NAUGRA®

Product name:	Product code:
Electro Hydraulic Circuit Troubleshooting Trainer	CMI-NP-1292

Description

Trainer with insertable faults in solenoids, switches and valves so students diagnose and correct electro-hydraulic circuit problems. Key highlights include ten insertable faults and solenoid and relay circuit.

Technical specification

Cylinders	2 nos
Dimensions	1200 x 600 x 1500 mm

Standard Accessories

- Test leads
- Manual

Trainer with insertable faults in solenoids, switches and valves so students diagnose and correct electro-hydraulic circuit problems. Key highlights include ten insertable faults and solenoid and relay circuit.

Features

- Ten insertable faults
- Solenoid and relay circuit
- Pressure test points
- Fault log sheets
- Hydraulic cylinder sequence

Technical Specifications

Supply	415 V AC, 3 phase
Faults	10
Control	24 V DC relay
Pump	2.2 kW
Pressure	0-60 bar
