Product name:	Product code:
Capacitor Bank and Power Factor Correction Training Panel	CMI-NP-1313

Description

Capacitor Bank and Power Factor Correction Training Panel is a training panel designed for studying power factor improvement using capacitor banks.

Technical specification

Protection	MCB and HRC fuses
Panel	sheet steel powder coated
Frequency	50 Hz

Standard Accessories

- Test leads
- Manual

The Capacitor Bank and Power Factor Correction Training Panel is a training panel built for studying power factor improvement using capacitor banks.

Features

- Switchable capacitor steps
- Power factor meter and indicators
- Inductive load for lagging power factor
- Automatic and manual modes
- Easy to operate

Technical Specifications

Capacitor Steps	4 x 2.5 kVAr
Power Factor Meter	0.5 lag to 0.5 lead
Load	inductive and resistive
Voltage	415 V AC, 3 phase
