Product name:	Product code:
Overhead Line and Cable Fault Simulation Trainer	CMI-NP-1319

Description

Overhead Line and Cable Fault Simulation Trainer is a training system designed for understanding cable continuity, insulation and short-circuit fault location.

Technical specification

Panel	powder coated MS
Supply	230 V AC, 50 Hz

Standard Accessories

- Test leads
- Manual

The Overhead Line and Cable Fault Simulation Trainer is a training system built for understanding cable continuity, insulation and short-circuit fault location.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India
Email us at: export@civilmechanicalindia.com

- Simulates open, short and earth faults
- Cable lengths with test points
- Digital insulation tester included
- Safe low voltage operation
- Hands-on fault finding practice

Technical Specifications

Cable Length Simulated	0 to 5 km scale
Fault Types	open, short, earth
Fault Switches	10 nos
Insulation Tester	500 V DC
Display	digital meter
