Product name:	Product code:
Six-Axis Industrial Robot Training System	CMI-NP-1332

Description

Six-Axis Industrial Robot Training System is a robot training system designed for learning kinematics, teach pendant programming and pick and place tasks.

Technical specification

Gripper	pneumatic parallel
Supply	230 V AC, 50 Hz

Standard Accessories

- Teach pendant
- Gripper set
- Software
- Manual

The Six-Axis Industrial Robot Training System is a robot training system built for learning kinematics, teach pendant programming and pick and place tasks.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India

- Six degrees of freedom articulated arm
- Teach pendant and PC programming
- Modular end effectors
- Safety enclosure and e-stop
- Includes sample training tasks

Technical Specifications

Axes	6
Payload	3 kg
Reach	600 mm
Repeatability	+/-0.05 mm
Controller	embedded with teach pendant
