Product name:	Product code:
Grid Tied Solar Inverter Trainer	CMI-NP-1333

Description

Grid Tied Solar Inverter Trainer is a training unit designed for studying grid synchronisation, inverter operation and anti-islanding.

Technical specification

Display	LCD
Meters	DC and AC

Standard Accessories

- Test leads
- Manual

The Grid Tied Solar Inverter Trainer is a training unit built for studying grid synchronisation, inverter operation and anti-islanding.

Features

- Single phase grid inverter
- Display of DC and AC parameters
- Synchronisation indicators
- Fault simulation
- Safety isolators

Technical Specifications

Inverter	1 kW grid tied
DC Input	120 to 450 V
AC Output	230 V, 50 Hz
Efficiency	95 percent
Protection	over voltage, islanding
