Product name:	Product code:
Photoelectric Sensor Training Module	CMI-NP-1385

Description

Photoelectric Sensor Training Module is a training module designed for studying diffuse, through-beam and reflective photoelectric sensors.

Technical specification

Mounting	aluminium profile
Indicators	LEDs

Standard Accessories

- Cables
- Manual

The Photoelectric Sensor Training Module is a training module built for studying diffuse, through-beam and reflective photoelectric sensors.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India
Email us at: export@civilmechanicalindia.com

- Different sensor types mounted
- Adjustable sensing range
- LED output indicators
- Slide stand
- Sample objects

Technical Specifications

Sensors	through beam, retro reflective, diffuse
Sensing Range	0 to 500 mm
Supply	24 V DC
Output	PNP and NPN
Objects	metal, plastic, wood
