NAUGRA®

Product name:	Product code:
PCB Etching Machine with Heater and Agitation	CMI-NP-1402

Description

PCB Etching Machine with Heater and Agitation is an etching machine designed for etching copper clad boards quickly and uniformly with heated, agitated etchant.

Technical specification

Pump	air
Power Supply	230 V AC, 50 Hz

Standard Accessories

- Board holder
- Manual

The PCB Etching Machine with Heater and Agitation is an etching machine built for etching copper clad boards quickly and uniformly with heated, agitated etchant.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India

- Heated tank with thermostat
- Bubble agitation pump
- Transparent lid
- Timer
- Leakproof design

Technical Specifications

Tank Capacity	6 litres
Board Size	up to 250 x 200 mm
Temperature	up to 60 deg C
Etch Time	3 to 10 min
Material	polypropylene
