Product name:	Product code:
Constant Force Floating Polishing Head Module	CMI-NP-1416

Description

Constant Force Floating Polishing Head Module is a robot module designed for compensating contact force during robotic grinding and polishing.

Technical specification

Sensor	linear position
Weight	2.5 kg

Standard Accessories

- Air tube
- Manual

The Constant Force Floating Polishing Head Module is a robot module built for compensating contact force during robotic grinding and polishing.

Features

- Pneumatic constant force
- Adjustable pressure
- Quick mount flange
- Position feedback
- Compact design

Technical Specifications

Force Range	5 to 50 N
Compensation Stroke	20 mm
Air Pressure	4 to 6 bar
Mounting	ISO flange
Regulator	precision
