NAUGRA®

Product name:	Product code:
Robot Force Torque Sensor Training Module	CMI-NP-1420

Description

Robot Force Torque Sensor Training Module is a training module designed for measuring contact force and torque in robotic finishing tasks.

Technical specification

Sampling	1 kHz
Supply	24 V DC

Standard Accessories

- Cables
- Software
- Manual

The Robot Force Torque Sensor Training Module is a training module built for measuring contact force and torque in robotic finishing tasks.
