NAUGRA®

Product name:	**Product code:**
Vocational Electrical Machines Training Bench	CMI-NP-1584

Description

Vocational Electrical Machines Training Bench is a workbench with a DC motor, AC motor, loading arrangement and meters for machine tests. It is used for performing load and speed tests on electrical machines.

Technical specification

Bench	Steel
Tachometer	Digital
Power Supply	230 V AC, 50 Hz, single phase

Vocational Electrical Machines Training Bench is a workbench with a DC motor, AC motor, loading arrangement and meters for machine tests. It is designed for performing load and speed tests on electrical machines. Key highlights include dC shunt and 3 phase induction motor, brake drum loading and digital meters for V and A.

Features

- DC shunt and 3 phase induction motor
- Brake drum loading
- Digital meters for V and A
- Rheostats and starter
- Heavy metal bench

Technical Specifications

DC Motor	2 hp, 220 V
Induction Motor	1 hp, 415 V
Loading	Brake drum with spring balance
Meters	Digital
