Product name:	Product code:
Vocational Bubble Cap Distillation Column	CMI-NP-1639

Description

Vocational Bubble Cap Distillation Column is a tray column with bubble caps. It is used for studying plate distillation.

Technical specification

Vocational Bubble Cap Distillation Column is a tray column with bubble caps. It is designed for studying plate distillation. Key highlights include glass trays, bubble caps and reboiler.

Features

- Glass trays
- Bubble caps
- Integrated reboiler for reliable use
- Integrated condenser for reliable use
- Integrated sampling for reliable use

Technical Specifications

Trays	5
Diameter	50 mm
Boiler	3 litre
Heater	1.5 kW
Condenser	Water
Power Supply	230 V AC, 50 Hz, single phase
