Product name:	Product code:
Control Valve Characteristics Trainer	CMI-NP-1668

Description

Control Valve Characteristics Trainer is a rig for control valve flow characteristic tests. It is used for studying valve Cv and positioner action.

Technical specification

Pump	0.5 hp
Power Supply	230 V AC, 50 Hz, single phase

Control Valve Characteristics Trainer is a rig for control valve flow characteristic tests. It is designed for studying valve Cv and positioner action. Key highlights include globe valve, positioner and flow meter.

Features

- Globe valve
- Integrated positioner for reliable use
- Flow meter
- Pressure gauges
- Integrated pump for reliable use

Technical Specifications

Valve Size	15 mm
Cv	Variable
Flow	0 to 30 LPM
Positioner	Smart
Pressure	0 to 4 bar
