Product name:	Product code:
Pressure Control Process Trainer	CMI-NP-1673

Description

Pressure Control Process Trainer is a compressed air vessel with pressure transmitter and proportional valve. It is used for tuning pressure control loops.

Technical specification

Controller	PID
Power Supply	230 V AC, 50 Hz, single phase

Pressure Control Process Trainer is a compressed air vessel with pressure transmitter and proportional valve. It is designed for tuning pressure control loops. Key highlights include air receiver, pressure transmitter and i/P converter.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India

- Air receiver
- Pressure transmitter
- I/P converter
- Control valve
- Integrated controller for reliable use

Technical Specifications

Vessel	20 litre
Range	0 to 6 bar
Transmitter	4 to 20 mA
Valve	I/P with positioner
Compressor	0.5 hp
