Product name:	Product code:
Smart Transmitter Calibration Trainer	CMI-NP-1675

Description

Smart Transmitter Calibration Trainer is a trainer with HART transmitters and calibrator. It is used for calibrating pressure and temperature transmitters.

Technical specification

Accuracy	0.1 percent
Power Supply	230 V AC, 50 Hz, single phase

Smart Transmitter Calibration Trainer is a trainer with HART transmitters and calibrator. It is designed for calibrating pressure and temperature transmitters. Key highlights include hART transmitter, pressure pump and calibrator.

Features

- HART transmitter
- Pressure pump
- Integrated calibrator for reliable use
- Hand held communicator
- Test points

Technical Specifications

Transmitters	Pressure, temperature
Range	0 to 10 bar
Output	4 to 20 mA
Communicator	HART
Pump	Hand
