Product name:	Product code:
Industrial Automation Training Workbench	CMI-NP-1693

Description

Workbench with a mounting frame and removable component modules allowing flexible construction of automation experiments with PLC, drives and sensors. Key highlights include mounting panel with T-slots and removable PLC and drive modules.

Technical specification

Power supply	24 V DC, 10 A
Protection	MCB and ELCB
Drawers	2 nos
Castors	Lockable

Standard Accessories

- Module set
- Manual

Workbench with a mounting frame and removable component modules allowing flexible construction of automation experiments with PLC, drives and sensors. Key highlights include mounting panel with T-slots and removable PLC and drive modules.

Features

- Mounting panel with T-slots
- Removable PLC and drive modules
- Power supply unit
- Storage drawers
- Lockable castors

Technical Specifications

Supply	230 V AC, 50 Hz, single phase
Mounting	Aluminium profile panel
Table	1500 x 750 mm
