Product name:	Product code:
Modular Production Compressor and Air Preparation Unit	CMI-NP-1727

Description

Modular Production Compressor and Air Preparation Unit is a silent compressor with a filter regulator and manifold for supplying the modules. It is used for supplying clean regulated compressed air to modular production trainers.

Technical specification

Noise	Below 55 dB
Power Supply	230 V AC, 50 Hz, single phase

Modular Production Compressor and Air Preparation Unit is a silent compressor with a filter regulator and manifold for supplying the modules. It is designed for supplying clean regulated compressed air to modular production trainers. Key highlights include oil-free silent compressor, filter regulator with gauge and manifold with quick couplers.

Features

- Oil-free silent compressor
- Filter regulator with gauge
- Manifold with quick couplers
- Receiver tank
- Wheeled trolley

Technical Specifications

Pressure	Up to 8 bar
Tank	24 litre
Free Air	50 LPM
Motor	0.5 hp
