NAUGRA®

Product name:	**Product code:**
Diffuse Reflective Sensor Training Set	CMI-NP-1764

Description

Diffuse Reflective Sensor Training Set is a set for studying background suppression and diffuse sensors with different colours and surfaces.

Technical specification

Base	Aluminium profile with T-slots

Standard Accessories

- Sensor mounting kit
- Connecting cables
- Experiment manual

The Diffuse Reflective Sensor Training Set is a set for studying background suppression and diffuse sensors with different colours and surfaces. It is designed for learning the installation, alignment and application of optical sensors in automated mechatronic systems.

Features

- Practical tasks on detection, counting and sorting
- Aluminium profile base plate with T-slots
- Includes wiring tasks with safety plugs
- Industrial-grade optical sensors on adjustable mounts

Technical Specifications

Range	10 - 300 mm adjustable
Targets	White, black, metallic, glossy
Response time	1 ms
Supply	230 V AC, 50 Hz, single phase
Sensor supply	24 V DC
