Product name:	Product code:
Slot Optical Sensor Counter Training Set	CMI-NP-1771

Description

Slot Optical Sensor Counter Training Set is a trainer with slot-type optical interrupters, counter and display for item counting experiments.

Technical specification

Base	Aluminium profile with T-slots

Standard Accessories

- Sensor mounting kit
- Connecting cables
- Experiment manual

The Slot Optical Sensor Counter Training Set is a trainer with slot-type optical interrupters, counter and display for item counting experiments. It is designed for learning the installation, alignment and application of optical sensors in automated mechatronic systems.

Features

- Aluminium profile base plate with T-slots
- Includes wiring tasks with safety plugs
- Industrial-grade optical sensors on adjustable mounts
- PLC compatible 24 V DC PNP or NPN outputs

Technical Specifications

Slot width	5 mm
Counter	4 digit LED
Output	TTL
Supply	230 V AC, 50 Hz, single phase
Sensor supply	24 V DC
