| Laser Ranging Measurement Assessment Device | CMI-NP-1783 |

## Description

Laser Ranging Measurement Assessment Device is a device for assessing laser distance measurement setup and data analysis skills.

## Technical specification

| | |
|---|---|
| Worktable | Aluminium profile frame |

**Standard Accessories**

- Task sheets
- Connecting cables
- Assessment guide

The Laser Ranging Measurement Assessment Device is a device for assessing laser distance measurement setup and data analysis skills. It is designed for training and skill assessment of students on opto-mechatronic systems with fault finding and performance scoring.
