Product name:	Product code:
Optical Path Alignment Assessment Device	CMI-NP-1788

Description

Optical Path Alignment Assessment Device is a device for assessing trainee skill in aligning laser and lens optical paths with measurement scoring.

Technical specification

Worktable	Aluminium profile frame

Standard Accessories

- Task sheets
- Connecting cables
- Assessment guide

The Optical Path Alignment Assessment Device is a device for assessing trainee skill in aligning laser and lens optical paths with measurement scoring. It is designed for training and skill assessment of students on opto-mechatronic systems with fault finding and performance scoring.

Features

- Modules for assembly, wiring, programming and testing
- Industrial grade optical and mechanical parts
- Task sheets and scoring forms provided
- Robust aluminium profile worktable

Technical Specifications

Bench	800 mm rail
Laser	650 nm, < 1 mW
Scoring	Photodetector based
Supply	230 V AC, 50 Hz, single phase
Controller	PLC, 24 V DC I/O
