Product name:	Product code:
Optical Sensor Wiring and Commissioning Assessment Device	CMI-NP-1790

Description

Optical Sensor Wiring and Commissioning Assessment Device is a wiring practice board with different optical sensors, relays and indicators for commissioning assessment.

Technical specification

Controller	PLC, 24 V DC I/O
Worktable	Aluminium profile frame

Standard Accessories

- Task sheets
- Connecting cables
- Assessment guide

The Optical Sensor Wiring and Commissioning Assessment Device is a wiring practice board with different optical sensors, relays and indicators for commissioning assessment. It is designed for training and skill assessment of students on opto-mechatronic systems with fault finding and performance scoring.

Features

- Robust aluminium profile worktable
- Assessment faults inserted by examiner key
- Modules for assembly, wiring, programming and testing
- Industrial grade optical and mechanical parts

Technical Specifications

Sensors	6 types
Terminals	Colour coded
Check	LED results
Supply	230 V AC, 50 Hz, single phase
