Product name:	Product code:
PLC Optical Control Programming Assessment Device	CMI-NP-1791

Description

PLC Optical Control Programming Assessment Device is a PLC based set assessing ladder programming for optical sensors and indicators.

Technical specification

Worktable	Aluminium profile frame

Standard Accessories

- Task sheets
- Connecting cables
- Assessment guide

The PLC Optical Control Programming Assessment Device is a PLC based set assessing ladder programming for optical sensors and indicators. It is designed for training and skill assessment of students on opto-mechatronic systems with fault finding and performance scoring.

Features

- Robust aluminium profile worktable
- Assessment faults inserted by examiner key
- Modules for assembly, wiring, programming and testing
- Industrial grade optical and mechanical parts

Technical Specifications

PLC	24 DI/16 DO relay
Software	Ladder, FBD, ST
Panel	7 inch HMI
Supply	230 V AC, 50 Hz, single phase
Controller	PLC, 24 V DC I/O
