Product name:	Product code:
PCB Engraver with Z Height Auto Calibration	CMI-NP-1811

Description

PCB Engraver with Z Height Auto Calibration is an engraver that probes the surface and corrects engraving depth automatically.

Technical specification

Interface	USB to PC

Standard Accessories

- Engraving bits set
- Drill bits set
- Software CD

The PCB Engraver with Z Height Auto Calibration is an engraver that probes the surface and corrects engraving depth automatically. It is designed for making printed circuit boards by mechanical engraving, drilling and routing without chemicals.

Features

- Suitable for single and double sided boards
- Prototyping of PCBs without chemical etching
- Accurate stepper or servo driven XYZ axes
- Software converts Gerber files to tool paths

Technical Specifications

Area	250 x 200 mm
Probe	Touch plate
Depth control	0.01 mm
Supply	230 V AC, 50 Hz, single phase
Spindle speed	Up to 60000 rpm
