Product name:	Product code:
Router Type PCB Engraver with Dust Extraction	CMI-NP-1812

Description

Router Type PCB Engraver with Dust Extraction is a router style engraver fitted with a dust extraction nozzle for cleaner PCB machining.

Technical specification

Interface	USB to PC

Standard Accessories

- Engraving bits set
- Drill bits set
- Software CD

The Router Type PCB Engraver with Dust Extraction is a router style engraver fitted with a dust extraction nozzle for cleaner PCB machining. It is designed for making printed circuit boards by mechanical engraving, drilling and routing without chemicals.

Features

- Vacuum or clamp bed holds the board flat
- Suitable for single and double sided boards
- Prototyping of PCBs without chemical etching
- Accurate stepper or servo driven XYZ axes

Technical Specifications

Area	300 x 300 mm
Spindle	2.2 kW
Extraction	300 W vacuum
Supply	230 V AC, 50 Hz, single phase
Spindle speed	Up to 60000 rpm
