Product name:	Product code:
PCB Chemical Etching and Stripping Machine	CMI-NP-1826

Description

PCB Chemical Etching and Stripping Machine is a spray etching machine for developing, etching and stripping boards.

Technical specification

- Anodes
- Racks
- Chemical kit

The PCB Chemical Etching and Stripping Machine is a spray etching machine for developing, etching and stripping boards. It is designed for through-hole plating and chemical metallization of double sided and multilayer PCBs in a lab.

Features

- Heated and agitated tanks for uniform plating
- Corrosion-resistant PP or PVC construction
- Digital temperature and timer controls
- Fume extraction connection

Technical Specifications

Board size	A4
Pumps	2 spray, acid resistant
Heater	1 kW titanium
Supply	230 V AC, 50 Hz, single phase
Tank material	Polypropylene
Heater	PTFE or titanium, with controller
