NAUGRA®

Product name:	Product code:
PLC Elevator Control Simulation Training Device	CMI-NP-1836

Description

PLC Elevator Control Simulation Training Device is a PLC trainer with a four-floor lift model for designing lift control logic.

Technical specification

- Programming cable
- Patch cords
- Software disc

The PLC Elevator Control Simulation Training Device is a PLC trainer with a four-floor lift model for designing lift control logic. It is designed for designing, programming and testing PLC based control systems for industrial automation tasks.

Features

NAUGRA®
Civil Laboratory Equipment Manufacturers and Suppliers India Civil Lab Exportrs India
Email us at: export@civilmechanicalindia.com

- Digital and analog I/O
- Simulation modules for lifts, traffic and batch process
- Programming in ladder, FBD and structured text
- Safety sockets and short-circuit protection

Technical Specifications

Floors	4 floors
Inputs	Call and floor sensors
Display	7-segment floor indicator
Supply	230 V AC, 50 Hz, single phase
PLC I/O	24 DI / 16 DO
Communication	Ethernet and RS485

Standard Accessories
