NAUGRA®

Product name:	**Product code:**
PLC HMI Integrated Training Device	CMI-NP-1837

Description

PLC HMI Integrated Training Device is a trainer integrating a PLC with a touch HMI panel for screen design and control.

Technical specification

- Programming cable
- Patch cords
- Software disc

The PLC HMI Integrated Training Device is a trainer integrating a PLC with a touch HMI panel for screen design and control. It is designed for designing, programming and testing PLC based control systems for industrial automation tasks.

Features

- Simulation of pulse, traffic and batch process
- Programming in ladder, FBD and structured text
- Safety sockets and short-circuit protection
- Suitable for PLC, HMI and SCADA practice

Technical Specifications

HMI	7 inch colour touch
PLC	Compact, 14 DI / 10 DO
Link	Ethernet
Supply	230 V AC, 50 Hz, single phase
PLC I/O	24 DI / 16 DO
Communication	Ethernet and RS485

Standard Accessories
