Product name:	Product code:
Palletizing Robot Simulation and Programming Training System	CMI-NP-1858

Description

Palletizing Robot Simulation and Programming Training System is a combined trainer with simulation software and a physical robot for programming palletizing tasks.

Technical specification

Axes	4 axes
Control	Robot controller with teach pendant

Standard Accessories

- Teach pendant
- Cartons
- Pallet set

The Palletizing Robot Simulation and Programming Training System is a combined trainer with simulation software and a physical robot for programming palletizing tasks. It is designed for training in programming, teaching and operating robots for stacking and palletizing goods.

Features

- Compatible with conveyors and vision modules
- Four axis palletizing arm with gripper
- Teach pendant and offline programming
- Configurable pallet patterns

Technical Specifications

Software	3D simulation
Programs	Teach and script
Interface	Ethernet
Supply	230 V AC, 50 Hz, single phase
