Product name:	Product code:
Belt Drive Alignment Training Device	CMI-NP-1894

Description

Belt Drive Alignment Training Device is a device for aligning pulleys and tensioning V belts.

Technical specification

- Dial gauges
- Spanner set
- Shims set

The Belt Drive Alignment Training Device is a device for aligning pulleys and tensioning V belts. It is designed for practical training in shaft coupling, alignment, bearings and power transmission for mechanical maintenance.

Features

- Rugged castiron adjustment parts
- Safe guarded rotating parts
- Portable base with adjustable motor and driven shafts
- Realistic coupling and alignment tasks

Technical Specifications

Belt	SPZ, 800 mm
Pulleys	2 nos
Tension	Gauge
Motor	0.37 kW, 1440 rpm, 230 V
Base	MS plate with T-slots
Guard	Transparent polycarbonate
