NAUGRA®

| **Product name:** | **Product code:** |
| --- | --- |
| Distributed Control Process Training System | CMI-NP-1943 |

## Description

Distributed Control Process Training System is a trainer with a DCS style controller and field devices.

## Technical specification

- Tubes
- Manual
- Cables

The Distributed Control Process Training System is a trainer with a DCS style controller and field devices. It is designed for studying the control of temperature, flow, level and pressure variables in process industries.

**Features**

- Industrial transmitters and control valves
- PC or PLC data acquisition
- Floor standing frame with trolley wheels
- Multi-variable process rig

**Technical Specifications**

| | |
|---|---|
| Controllers | 2 nodes |
| Network | Fieldbus |
| HMI | 10 inch |
| Supply | 230 V AC, 50 Hz, single phase |
| Signals | 4 - 20 mA |
| Controller | PID, programmable |

**Standard Accessories**
