NAUGRA®

Product name:	Product code:
Two Axis Servo Synchronous Motion Training Platform	CMI-NP-2161

Description

Platform with two servo axes in master slave synchronisation as in gantry drives. Used to study electronic gearing and cam. Students set gear ratios and observe following error between axes.

Technical specification

Stroke	250 mm
Power Supply	230 V AC, 50 Hz, single phase
Construction	Powder coated MS frame with laminated work surface and labelled terminals

Standard Accessories

- Patch cord set
- Instruction manual
- Experiment manual

The Two Axis Servo Synchronous Motion Training Platform is designed for ITI, polytechnic and TVET laboratories. Students set gear ratios and observe following error between axes.
