NAUGRA®

Product name:	Product code:
Wind Power Generator Fault Simulation Training Panel	CMI-NP-2196

Description

Panel with fault switches for generator, rectifier, battery and sensors. Used to train diagnosis. Students find inserted faults using meters.

Technical specification

Supply	12 V
Power Supply	230 V AC, 50 Hz, single phase
Construction	Powder coated MS frame with laminated work surface and labelled terminals

Standard Accessories

- Patch cord set
- Instruction manual
- Experiment manual

The Wind Power Generator Fault Simulation Training Panel is designed for ITI, polytechnic and TVET laboratories. Students find inserted faults using meters.
