Product name:	Product code:
Wind Power Generator Speed Control Training System	CMI-NP-2200

Description

System with controller to regulate rotor speed using load changes. Teaches speed limiting at high wind. Students raise wind speed and watch the controller limit rpm.

Technical specification

Brake	Electromagnetic
Power Supply	230 V AC, 50 Hz, single phase
Construction	Powder coated MS frame with laminated work surface and labelled terminals

Standard Accessories

- Patch cord set
- Instruction manual
- Experiment manual

The Wind Power Generator Speed Control Training System is designed for ITI, polytechnic and TVET laboratories. Students raise wind speed and watch the controller limit rpm.
