Product name:	Product code:
Wind Solar Hybrid Controller Training System	CMI-NP-2205

Description

System with hybrid controller managing wind and solar charging of a battery. Teaches charge priority and protection. Students apply different source combinations and note controller response.

Technical specification

Meters	Digital
Power Supply	230 V AC, 50 Hz, single phase
Construction	Powder coated MS frame with laminated work surface and labelled terminals

Standard Accessories

- Patch cord set
- Instruction manual
- Experiment manual

The Wind Solar Hybrid Controller Training System is designed for ITI, polytechnic and TVET laboratories. Students apply different source combinations and note controller response.
