Product name:	Product code:
Cross Hatch Adhesion Test Kit for Printed Film	CMI-IND-0122

Description

Cutter set and pressure-sensitive tape used to test the adhesion of ink or coating layers on plastic films by scribing a grid and tape pull-off. Used by flexible packaging printers.

Technical specification

- Brush
- Magnifier

A multi-blade cutter scores a lattice through the ink film and tape is applied and removed to see how much printing comes away. Ratings from 5B to 0B give a quick comparison of inks, primers and corona treatment levels. It is a cost-effective check at press side.

Features

- Multi-blade cutter with 1 mm and 2 mm spacing
- Standard pressure-sensitive tape with defined adhesion
- Illuminated magnifier
- Cutting guide and soft brush
- Rating chart supplied

Technical Specifications

Blade Spacing	1 mm and 2 mm
Number of Cuts	6 x 6
Tape Adhesion	approx. 6 N/10 mm
Tape Width	25 mm
Standards	ASTM D3359, ASTM F2252, ISO 2409
Case	Rigid plastic with foam insert

Standard Accessories

- Pressure sensitive tape roll
