Product name:	Product code:
Digital Brix Refractometer for Packaged Food Liquids	CMI-IND-0251

Description

Digital refractometer that reads soluble solids in Brix for sauces, juices, syrups and jams from a single drop. Used for formulation control and finished pack checks in food packing plants.

Technical specification

- Pipettes
- Distilled water
- Case

A drop of product is placed on a prism and the refractive index is converted to Brix. Temperature is compensated automatically. Results appear in a few seconds for quick batch decisions.
