Product name:	Product code:
Moisture Analyzer Halogen for Food Products	CMI-IND-0254

Description

Halogen lamp moisture balance for rapid moisture determination in flour, spices, snacks and powders. Used by food plants for incoming raw material checks and finished pack release.

Technical specification

- Pans
- Pan handler
- Dust cover

The sample is dried by halogen heat while the integrated balance records weight loss. Moisture content is displayed as percentage when dried to constant weight. Programmed profiles give gentle heating for sugar-rich foods.
