Seal Strength Tester for Food Pouch Packages	CMI-IND-0257

Description

Tensile-type tester that measures heat seal strength of flexible food pouches and laminates. Used by snack, spice and ready meal packers to confirm pack integrity.

Technical specification

- Grips
- Strip cutter
- Software

Strips cut from the seal area are pulled apart at a set speed to find peak peel force. Strong seals prevent leaks and extend shelf life. The software provides average seal strength in N/15 mm.
