Product name:	Product code:
Preform and Bottle Gate Thickness and Dimension Gauge Set	CMI-IND-0269

Description

Combined gauges for neck finish, preform length, wall thickness and gate dimensions of PET preforms. Used by injection molders and bottle makers to inspect preforms before stretch blowing.

Technical specification

- Case
- Master ring
- Cleaning cloth

Go and no-go and dial gauges check the neck thread, support ring and preform wall at several points. Gauge readings confirm conformity to drawings. Results prevent cap fitting problems and uneven bottle walls.
