Product name:	Product code:
Blister Pack Leak Test Apparatus Vacuum Dye	CMI-IND-0281

Description

Vacuum chamber for blister and strip pack leak detection by dye ingress. Used by pharmaceutical packaging lines to verify seal integrity of aluminium blisters and count leaking cavities.

Technical specification

- Pump
- Tray
- Dye

Blisters are immersed in dye solution under vacuum, then released and examined for dye in cavities. Leaking cavities are counted. It verifies seal integrity of aluminium blisters.
