Product name:	Product code:
Luer Taper Gauge and Syringe Leakage Test Set	CMI-IND-0293

Description

Gauge set for checking luer slip and luer lock dimensions and for pressure leakage of syringe and connector fittings. Used by medical device makers to verify compatibility of connectors.

Technical specification

- Gauges
- Case

Reference luer gauges check fit and a pressure leak test detects leakage. Verifies compatibility between medical devices. Often used with a syringe tester.
