Product name:	Product code:
Surgical Glove Tensile and Water Leak Tester	CMI-IND-0298

Description

Tester combining tensile testing of glove strips and a water fill leak stand for pinholes. Used by exam and surgical glove producers to verify strength, elongation and watertightness.

Technical specification

- Die
- Stand

A water leak test fills a glove with water to look for leaks while a tensile machine tests strips. Verifies strength and watertightness.

Features

- Tensile load 500 N
- Dumbbell die
- Water leak stand
- Speed 500 mm/min
- Software

Technical Specifications

Test Standards	ASTM D412, ASTM D5151, ISO 11193-1
Load	500 N
Speed	500 mm/min
Elongation	Up to 1000 %
Grips	Pneumatic
Display	LCD
Leak Volume	1000 ml
Power	230 V AC, 50 Hz

Standard Accessories
