Product name:	Product code:
Insulation Resistance Tester for Cables 10 kV Digital	CMI-IND-0339

Description

Digital megohm meter with test voltages to 10 kV for insulation resistance and polarisation index of cables and windings. Used in factory test bays and plant maintenance.

Technical specification

- Test leads with HV clips
- Guard lead
- Carry case

Selectable test voltages from 500 V to 10 kV are applied and insulation resistance up to 10 teraohm is measured. Timed readings give dielectric absorption ratio and polarisation index.

Features

- Voltages up to 10 kV
- Range up to 10 T ohm
- PI and DAR automatic
- Guard terminal for surface leakage
- Data memory with USB
- Rechargeable battery

Technical Specifications

Test voltages	500, 1000, 2500, 5000, 10000 V
Range	10 kohm to 10 Tohm
Accuracy	+/-5% of reading
Short circuit current	5 mA
Timer	up to 99 min
Display	Colour LCD
Power	Li-ion battery or 230 V AC
Standards	IEC 61557-2, IEEE 43

Standard Accessories
