NAUGRA®

Product name:	Product code:
Print Gloss Meter for Coated Paper and Inks	CMI-IND-0384

Description

Gloss meter measuring specular gloss at 20, 60 and 85 degrees on printed paper. Used in magazine, packaging and label printing. Readings help compare varnishes, laminates and coated stocks consistently.

Technical specification

Display	LCD
Power	AA batteries
Standards	ISO 2813, ASTM D523, TAPPI T480

Standard Accessories

- Calibration tile
- Case

A beam is reflected from the printed surface and compared to a glass standard. Triple angle reading helps characterise high gloss varnish and matt coatings.
