Product name:	Product code:
Printability Tester for Inks and Papers	CMI-IND-0387

Description

Laboratory proofing press that prints strips of ink on paper at controlled pressure and speed. Used by ink makers, paper mills and printers for comparative testing.

Technical specification

- Ink pipette
- Segment
- Rollers

Ink is applied to the roller and transferred to a paper strip at a set nip pressure. Print density, gloss and rub off can then be compared for ink and paper combinations.

Features

- Calibrated pressure
- Print speed 0.2 to 1 m/s
- Replaceable ink rollers
- Aluminium segment disc
- Strip width 50 mm

Technical Specifications

Print width	50 mm
Print length	200 mm
Print pressure	100 to 1000 N
Speed	0.2 to 1.0 m/s
Ink volume	0.01 to 1 ml
Roller hardness	Shore A 70
Power	230 V AC, 50 Hz
Standards	ISO 2834, ISO 12647

Standard Accessories
